Springer International

Oecologia

Derived from *"Zeitschrift für Morphologie und Ökologie der Tiere"*, *Oecologia* was founded in 1968, volumes (1968–1982), and edited by H. Remmert. As of volume 53 (1982) the journal has been edited by both H. Remmert and E.-D. Schulze. As of volume 81 (1989) the journal has been edited by J.R. Ehleringer, Salt Lake City; C.H. Peterson, Morehead City; H. Remmert, Marburg; E.-D. Schulze, Bayreuth. As of volume 83 (1990) the journal has been edited by J.R. Ehleringer, Salt Lake City; C.H. Peterson, Morehead City; M. Schaefer, Göttingen; E.-D. Schulze, Bayreuth.

Submission of a manuscript implies: that the work described has not been published before (except in the form of an abstract or as part of a published lecture, review, or thesis); that it is not under consideration for publication elsewhere; that its publication has been approved by all coauthors, if any, as well as by the responsible authorities at the institute where the work has been carried out; that, if and when the manuscript is accepted for publication, the authors agree to automatic transfer of the copyright to the publisher; and that the manuscript will not be published elsewhere in any language without the consent of the copyright holders.

All articles published in this journal are protected by copyright, which covers the exclusive rights to reproduce and distribute the article (e.g., as offprints), as well as all translation rights. No material published in this journal may be reproduced photographically or stored on microfilm, in electronic data bases, video disks, etc., without first obtaining written permission from the publisher.

The use of general descriptive names, trade names, trademarks, etc., in this publication, even if not specifically identified, does not imply that these names are not protected by the relevant laws and regulations.

While the advice and information in this journal is believed to be true and accurate at the date of its going to press, neither the authors, the editors, nor the publisher can accept any legal responsibility for any errors or omissions that may be made. The publisher makes no warranty, express or implied, with respect to the material contained herein.

Special regulations for photocopies in the USA: Photocopies may be made for personal or in-house use beyond the limitations stipulated under Section 107 or 108 of U.S. Copyright Law, provided a fee is paid. This fee is US $0.20 per page, or a minimum of US $1.00 if an article contains fewer than five pages. All fees should be paid to the Copyright Clearance Center, Inc., 21 Congress Street, Salem, MA 01970, USA, stating the ISSN 0029-8549, the volume, and the first and last page numbers of each article copied. The copyright owner's consent does not include copying for general distribution, promotion, new works, or resale. In these cases, specific written permission must first be obtained from the publisher.

Contents

Aart PJM van der → Aerts R
Aerts R, Boot RGA, Aart PJM van der: The relation between above- and belowground biomass allocation patterns and competitive ability 551
Alexander JE Jr, Covich AP: Predator avoidance by the freshwater snail *Physella virgata* in response to the crayfish *Procambarus simulans* 435
Alphen JJM van, Nordlander G, Eijs I: Host habitat finding and host selection of the *Drosophila* parasitoid *Leptopilina australis* (Hymenoptera, Eucoilidae), with a comparison of the niches of European *Leptopilina* species 324
Altmann J → Muruthi P
Altmann S → Muruthi P
Aukema B: Fecundity in relation to wing-morph of three closely related species of the *melanocephalus* group of the genus *Calathus* (Coleoptera: Carabidae) 118

Bach CE: Direct and indirect interactions between ants (*Pheidole megacephala*), scales (*Coccus viridis*) and plants (*Pluchea indica*) 233
Basset Y: Influence of leaf traits on the spatial distribution of insect herbivores associated with an overstorey rainforest tree 388
Batanouny KH, Stichler W, Ziegler H: Photosynthetic pathways and ecological distribution of *Euphorbia* species in Egypt 565
Baur R, Binder S, Benz G: Nonglandular leaf trichomes as short-term inducible defense of the grey alder, *Alnus incana* (L.), against the chrysomelid beetle, *Agelastica alni* L. 219
Bazzaz FA → Fajer ED
Bazzaz FA → Strauss-Debenedetti S
Beer S, Sand-Jensen K, Vindbaek Madsen T, Nielsen SL: The carboxylase activity of Rubisco and the photosynthetic performance in aquatic plants 429
Benz G → Baur R
Bernays EA → Howard JJ
Binder S → Baur R
Blits KC, Gallagher JL: Morphological and physiological responses to increased salinity in marsh and dune ecotypes of *Sporobolus virginicus* (L.) Kunth 330
Block WM, Brennan LA, Gutiérrez RJ: Ecomorphological relationships of a guild of ground foraging birds in northern California, USA 449
Bollens SM, Frost BW: Ovigerity, selective predation, and variable diel vertical migration in *Euchaeta elongata* (Copepoda: Calanoida) 155
Boot RGA → Aerts R
Borcherding J: The annual reproductive cycle of the freshwater mussel *Dreissena polymorpha* Pallas in lakes 208
Bowers MD → Fajer ED
Brennan LA → Block WM
Briggs JM → Seastedt TR
Bristow CM: Are ant-aphid associations a tritrophic interaction? Oleander aphids and Argentine ants 514
Brönmark C, Rundle SD, Erlandsson A: Interactions between freshwater snails and tadpoles: competition and facilitation 8
Brown VK → Rees M

Campbell BD, Grime JP, Mackey JML: A trade-off between scale and precision in resource foraging 532
Caswell H → Walls M
Chapman LJ, Kramer DL: The consequences of flooding for the dispersal and fate of poeciliid fish in an intermittent tropical stream 299
Chaudhuri S → Sengupta A
Contreras LC, Gutiérrez JR: Effects of the subterranean herbivorous rodent *Spalacopus cyanus* on herbaceous vegetation in arid coastal Chile 106
Covich AP → Alexander JE Jr
Croteau R → Mihaliak CA
Cuevas E → Medina E
Cunningham SA: Experimental evidence for pollination of *Banksia* spp. by non-flying mammals 86

Day TA → DeLucia EH
Deerenberg C → Prop J
DeLucia EH, Shenoi HD, Naidu SL, Day TA: Photosynthetic symmetry of sun and shade leaves of different orientations 51
Denlinger DL, Tanaka S, Downes WL, Wolda H, Guardia M: Does lack of diapause result in less insect seasonality 152
Dittami J → Hoi H
Downes WL → Denlinger DL
Drew RAI → Prokopy RJ
Duggins DO → Eckman JE
Duncan A → Guisande C

Eckman JE, Duggins DO: Life and death beneath macrophyte canopies: effects of understory kelps on growth rates and survival of marine, benthic suspension feeders 473
Eichler T → Hoi H
Eijs I → Alphen JJM van
Erlandsson A → Brönmark C
Evans EW: Intra versus interspecific interactions of ladybeetles (Coleoptera: Coccinellidae) attacking aphids 401

Fajer ED, Bowers MD, Bazzaz FA: Performance and allocation patterns of the perennial herb, *Plantago lanceolata*, in response to simulated herbivory and elevated CO_2 environments 37
Feminella JW, Resh VH: Herbivorous caddisflies, macroalgae, and epilithic microalgae: dynamic interactions in a stream grazing system 247
Ferkin M → Kurta A
Forget P-M, Milleron T: Evidence for secondary seed dispersal by rodents in Panama 596
Franz EH → Halvorson JJ
Frost BW → Bollens SM

Gallagher JL → Blits KC
Gartner BL: Stem hydraulic properties of vines vs. shrubs of western poison oak, *Toxicodendron diversilobum* 180
Gebauer G, Schulze E-D: Carbon and nitrogen isotope ratios in different compartments of a healthy and a declining *Picea abies* forest in the Fichtelgebirge, NE Bavaria 198
Gershenzon J → Mihaliak CA
Gessner MO, Schwoerbel J: Fungal biomass associated with decaying leaf litter in a stream 602
Giani A: Implications of phytoplankton chemical composition for zooplankton production: experimental evidence 409
Gibson DJ → Seastedt TR
Giebink BL → Scriber JM
Gittleman JL → Gompper ME
Gompper ME, Gittleman JL: Home range scaling: intraspecific and comparative trends 343
Gordon DR → Welker JM
Grime JP → Campbell BD
Gross KL, Smith AD: Seed mass and emergence time effects on performance of *Panicum dichotomiflorum* Michx. across environments 270
Guardia M → Denlinger DL
Guisande C, Duncan A, Lampert W: Trade-offs in *Daphnia* vertical migration strategies 357
Gutiérrez JR → Contreras LC
Gutiérrez RJ → Block WM

Hagemeier DD → Robinson JV
Halvorson JJ, Smith JL, Franz EH: Lupine influence on soil carbon, nitrogen and microbial activity in developing ecosystems at Mount St. Helens 162
Hamacek E → Prokopy RJ
Harvey BC: Interactions among stream fishes: predator-induced habitat shifts and larval survival 29
Harvey BC, Stewart AJ: Fish size and habitat depth relationships in headwater streams 336
Hearnden MN, Pearson RG: Habitat partitioning among the mayfly species (Ephemeroptera) of Yuccabine Creek, a tropical Australian stream 91
Hirose Y → Takasu K
Hobson KA, Montevecchi WA: Stable isotopic determinations of trophic relationships of great auks 528
Högberg P → Högbom L
Högbom L, Högberg P: Nitrate nutrition of *Deschampsia flexuosa* (L.) Trin. in relation to nitrogen deposition in Sweden 488

Högbom L, Ohlson M: Nitrate assimilation in coexisting vascular plants in mire and swamp forest habitats in Central Sweden 495
Hoi H, Eichler T, Dittami J: Territorial spacing and interspecific competition in three species of reed warblers 443
Howard JJ, Bernays EA: Effects of experience on palatability hierarchies of novel plants in the polyphagous grasshopper *Schistocerca americana* 424

Irlandi EA, Peterson CH: Modification of animal habitat by large plants: mechanisms by which seagrasses influence clam growth 307

Johnson RH, Lincoln DE: Sagebrush carbon allocation patterns and grasshopper nutrition: the influence of CO_2 enrichment and soil mineral limitation 127
Jurik TW: Population distributions of plant size and light environment of giant ragweed (*Ambrosia trifida* L.) at three densities 539

Ketola M → Walls M
Königer M, Winter K: Carotenoid composition and photon-use efficiency of photosynthesis in *Gossypium hirsutum* L. grown under conditions of slightly suboptimum leaf temperatures and high levels of irradiance 349
Königer M → Winter K
Kramer DL → Chapman LJ
Kulman HM → McCullough DG
Kurta A, Ferkin M: The correlation between demography and metabolic rate: a test using the beach vole (*Microtus breweri*) and the meadow vole (*Microtus pennsylvanicus*) 102

Lampert W → Guisande C
Lampo M → Ott JR
Lincoln DE → Johnson RH
Lloyd AC → Prokopy RJ

Maaskamp FIM → Wingerden WKRE van
Mackey JML → Campbell BD
McCullough DG, Kulman HM: Differences in foliage quality of young jack pine (*Pinus banksiana* Lamb.) on burned and clearcut sites: effects on jack pine budworm (*Choristoneura pinus pinus* Freeman) 135
Medgyesy N → Wieser W
Medina E, Sternberg L, Cuevas E: Vertical stratification of $\delta^{13}C$ values in closed natural and plantation forests in the Luquillo mountains, Puerto Rico 369
Mihaliak CA, Gershenzon J, Croteau R: Lack of rapid monoterpene turnover in rooted plants: implications for theories of plant chemical defense 373
Milleron T → Forget P-M
Milton SJ: Plant spinescence in arid southern Africa: does moisture mediate selection by mammals? 279
Montevecchi WA → Hobson KA
Muruthi P, Altmann J, Altmann S: Resource base, parity, and reproductive condition affect females' feeding time and nutrient intake within and between groups of a baboon population 467
Musters JCM → Wingerden WKRE van

Naidu SL → DeLucia EH
Nielsen SL → Beer S
Nilsen ET: The relationship between freezing tolerance and thermotropic leaf movement in five *Rhododendron* species 63
Nordlander G → Alphen JJM van

Ohlson M → Högbom L

Temperature 190, 417
Temperature threshold 208
Temporal change 265
Territoriality 443
Tetranychus urticae 146
Translocation 388
Tritrophic interaction 514
Trophic relationships 528
Tropical ecology 596
Tropical forests 369
Tropical stream ecology 299
Tropical trees/seedlings 377
Tropics 152

Variability 577
Vegetation structure 417
Vertical migration 357
Vessel diameter 180
Virola nobilis 596

Waders 581
Water realtions 63
Wing dimorphism 118
Wingmorph 118
Work efficiency 500

Xanthophyll cycle 349
Xylem 180

Zoobenthos 581
Zooplankton 155, 171
